Document: GOS-TOS-RBN · Version: 0.4 · Date: October 4, 2026

Relationship to other texts: these Terms govern company research, the business directory, and the gO Score Network, and they apply together with the gO Score Terms of Use. On what they specifically regulate, these Terms prevail; on everything else, the Terms of Use apply. The processing of personal data in these functions is explained in the gO Score Privacy Policy for research, directory, and Network.

1. The parties

1.1 Who provides the service. gO Score is provided by E & F International, Inc. ("E&F," "we," "us"), a corporation organized under the laws of the State of Texas, United States of America (file number 805048008 with the Texas Secretary of State), with its registered office at 8122 Datapoint, Suite 250, San Antonio, Texas 78229, United States. gO Score and gO AgroMarket are brands and products of E&F; they are not separate companies. E&F is the holder of the gO Score app on Apple's App Store. When you pay in the app, Apple processes the charge under its own terms; on the web, payments are processed with Stripe or, if offered and you choose it, with PayPal. Notices to E&F are sent to legal@goscore-app.com (Section 16).

1.2 Who uses it. A company or an individual engaged in business activity (the "Organization") through its administrators and authorized users ("you"). gO Score is a business-to-business service; it is not for personal, family, or household use.

1.3 No cross-guarantee. No company in the group (including E & F International, Inc. and GF-ORIGIN, S.A. de C.V.) is a guarantor of, or jointly and severally liable for, another, absent a written agreement. This clause does not replace the obligations the law imposes on each of them.

2. What gO Score is and what it is not

2.1 What we do. We collect, organize, and analyze information about companies from identified sources (public records, websites, public court indexes, official lists, press, search results) and from documents provided by users. With that information we generate our own analyses: the gO Score, tiers, sufficiency of the information, viability readings, financial ratios, and summaries, in part using artificial intelligence models.

2.2 What we do not do. gO Score is not:

a) a credit reporting agency, a credit information company (sociedad de información crediticia), or a rating agency;

b) an official certification or an audit;

c) an identity verification service for individuals;

d) an intermediary, guarantor, escrow agent, or party to transactions between users;

e) legal, tax, financial, customs, or agronomic advice.

2.3 Third-party information. Information that comes from third parties (public sources, other users, provided documents) may contain errors, omissions, or duplicates, or may be out of

date, and its coverage varies by country, sector, and period. We do not control those sources.

2.4 No guarantee of results. We do not guarantee the accuracy, completeness, or currency of the information, or the results of any commercial transaction. A research report, profile card, score, or reading does not guarantee the solvency, ability to pay, identity, certifications, licenses, regulatory compliance, or absence of fraud, litigation, or sanctions of any company or individual.

2.5 Absence of records. The fact that a search finds no records (for example, of litigation or of lists) does not mean that none exist.

3. Business directory

3.1 Content. The directory displays company profile cards built from public records (GLEIF, FMCSA/USDOT, INEGI DENUE, and any sources that are added) and from profiles that gO members chose to publish. Each data point indicates its source, license, and date.

3.2 Appearing does not imply a relationship. The fact that a company appears in the directory does not mean that it is a gO Score member, that it has engaged us, that we have verified, approved, or recommended it, or that any affiliation, partnership, or sponsorship with us exists. The "Public-source record," "gO member," and "Verified company" badges are distinct statuses, and none of them is a rating.

3.3 "Verified company." This means only that gO checked the Organization's identity with the procedure that applies to its type of account (for example, a verified work email with a corporate domain and consistent company data, review by a team member, or review of the documents its type of account requires), on the date shown on the profile card. It does not certify its solvency, quality, licenses, or compliance.

3.4 Suggested data. Products or activities marked "suggested by the name" are inferences, not facts.

3.5 Permitted use. You may use the directory to identify and evaluate potential commercial counterparties of your Organization. The following is prohibited: bulk data extraction (scraping, automated downloads), reconstructing or reselling the database, using it to send unsolicited mass communications, to research individuals for personal reasons, or contrary to the license of each source.

3.6 Corrections and removals. Any person may suggest a correction from the profile card or request one through the public form (Corrections Policy).

4. Research and reports

4.1 Request. A user Organization may request research on a company with which it has or seeks a commercial relationship. By requesting it, you represent that you have a legitimate business purpose related to that relationship.

4.2 Individuals. You must not request research on individuals for personal reasons or use the service to locate, surveil, or harass anyone. An individual engaged in business activity may be researched only with respect to that activity and for the business purpose in Section 4.1.

4.3 Artificial intelligence. If your Organization enabled the "AI provider" permission, the research sends data to the provider identified in the Privacy Policy. Without that permission, AI research is not executed, and withdrawing it stops any research in progress.

4.4 Documents you provide. You represent that you have the right to upload them and to have us process them for your research. If you upload a report purchased from a third party (for example, a credit or commercial directory report), you are responsible for ensuring that its

license permits such use; we cite its content on the issuer's scale and do not redistribute it.

4.5 What a research report contains. Each statement carries an evidence label (verified at source, declared by the company, secondary source, indication, contradictory, not verified) and its source. Sufficiency measures how much information was found, not the quality of the company. The viability reading is an automated commercial opinion; it is not a credit rating, a guarantee of payment, or a credit recommendation, and it does not change the gO Score.

4.6 Scope. Unless the research report states otherwise: we do not contact the company, its bank, or its references, nor do we purchase private reports.

4.7 Confidentiality. The research report is for the internal use of the Organization that requests it. We do not share it with the researched company.

4.8 Price and credits. The cost in credits is disclosed before starting; a credit is reserved at the start, consumed upon delivery, and released if the research fails. The price of plans and credits is shown before you pay. For purchases in the app, Apple's terms also apply, including those on cancellation and refunds.

5. gO Score and gO Score Reports

5.1 The gO Score is calculated only with applicable controls and admissible evidence; a lack of data reduces coverage, not the score. No plan, credit, or payment improves a score or removes legitimate information.

5.2 gO Score Reports are issued in editions with a defined audience (full, executive, passport, print). Only the executive and passport editions are shared, and only a person with evidenced authority may share them.

5.3 By generating or sharing a gO Score Report, you agree that it will be used only to evaluate a commercial relationship with the company and never for consumer credit, insurance, employment, or housing decisions about individuals, or for any other purpose regulated by the FCRA or equivalent laws.

6. Network

6.1 Network allows member Organizations with a published profile to connect for business purposes. Its use is also governed by the Network Rules, which form part of these Terms.

6.2 A connection is not an endorsement. A connection, a reference, or a published profile does not imply that we approve, verify, or recommend that Organization, or that any commercial relationship exists between it and us.

6.3 Transactions resulting from Network are between the Organizations. We are not a party, we do not guarantee their performance, and we do not arbitrate commercial disputes.

7. Downloads and shared links

7.1 Links expire (1 to 30 days; 7 by default), require a code, and may be revoked. Revoking does not retrieve copies already downloaded or forwarded.

7.2 Whoever downloads or shares is responsible for complying with the permitted use and for ensuring that the recipient is aware of it.

7.3 A downloaded document reflects the information as of its cutoff date. For the current status, consult the folio verification page.

8. Your obligations

You agree to: provide truthful information; have authority to act on behalf of your Organization;

not impersonate another person or company; not provide third-party data without the right to do so; respect the licenses of the sources; not use the service for discriminatory purposes, harassment, unfair competition, extortion, or to evade sanctions; not attempt to manipulate a score; and comply with applicable laws, including foreign trade and sanctions laws.

9. User content

You retain ownership of what you provide and grant us a limited license to host, process, and display it to the audiences you authorize, solely to provide the service. We may remove content that violates these Terms, the law, or third-party rights. If you believe that content infringes your copyright or trademark, send a notice to legal@goscore-app.com identifying the affected work or mark, where the content is (folio, profile card, or link), your contact details, and a good-faith statement that the use is not authorized. Where appropriate, we remove or disable the content and notify whoever provided it, who may respond.

10. Intellectual property and source licenses

The software, methodology, texts, and the gO Score brand are owned by E&F or used by E&F with the authorization of their owner. These Terms do not transfer to you any right in them, other than the limited, non-exclusive, non-transferable license to use the service while your Organization has an account. Data from public sources retains the license of its source, which is indicated on each profile card.

11. Disclaimer of warranties and limitation of liability

11.1 The service is provided "as is" and "as available," to the maximum extent permitted by law.

11.2 To the extent permitted by law: (a) we are not liable for commercial decisions you make based on the service, or for indirect or consequential damages, lost profits, or loss of opportunities; and (b) our total liability to your Organization for all claims related to the service will not exceed the greater of what your Organization paid us for the service in the 12 months before the event giving rise to the claim and 100 United States dollars.

11.3 Nothing in these Terms excludes or limits our liability for willful misconduct, gross negligence, or breach of legal obligations regarding personal data, or any rights that the law does not permit to be waived, including those of a consumer under the law applicable to them.

12. Indemnification

You will indemnify E&F against third-party claims arising from your improper use of the service, from documents you provide without the right to do so, or from breach of the permitted use of a research report, in proportion to your responsibility for the event. E&F is liable to you for its own breaches in accordance with these Terms and the law.

13. Suspension and termination

We may suspend accounts or functions (including Network) for breach, with human review and the right to request reconsideration, except in the case of urgent risk or legal mandate.

14. Changes

We will give notice of material changes by email and on the Platform at least 30 days in advance and, where appropriate, will request new acceptance. If you do not accept a material change, you may stop using the service before it takes effect.

15. Governing law and disputes

15.1 Governing law. These Terms are governed by the laws of the State of Texas and by the applicable federal laws of the United States, without regard to their conflict-of-laws rules.

15.2 Prior negotiation. Before bringing any action, the claiming party will notify the other in writing (E&F, at legal@goscore-app.com), and both will negotiate in good faith for 30 days.

15.3 Courts. Disputes not resolved in that way are submitted to the competent state or federal courts sitting in Bexar County, Texas.

15.4 Non-waivable rights. Nothing above deprives a user of the non-waivable rights or the forum granted by the law of their country or state, including, in Mexico, those under consumer protection and personal data protection laws where applicable.

15.5 Language. These Terms are published in Spanish and English with the same content. In the event of a discrepancy, the version in the language in which you accepted them prevails.

16. Contact

- Support: soporte@goscore-app.com and in-app help.
- Billing: facturacion@goscore-app.com.
- Privacy: privacidad@goscore-app.com.
- Legal notices and notices to E&F: legal@goscore-app.com. A notice sent to that address is deemed received on the business day following its sending.

We notify you at the email address of your Organization's administrator and within the Platform.
